COMPANY PROFILE | 2026

SECURITY. CONNECTED. READY.

Integrated security and technology solutions designed around the way you live, work and operate.

COMPANY OVERVIEW

Technology with purpose

Surveillance Options provides integrated security and technology solutions for businesses, buildings, estates and private homes.

We assess each requirement, design the system architecture, coordinate specialist providers, manage implementation and provide ongoing support. Our work spans security, networking, automation, multimedia and IT infrastructure.

HOW WE WORK

01 **HANDS-ON**

We stay close to the requirement, the site and the outcome.

02 **DETAIL-DRIVEN**

We plan carefully, communicate clearly and deliver with precision.

03 **FUTURE-FOCUSED**

We design systems that can adapt as technology and needs evolve.

ADVISORY AND DELIVERY

From requirement to implementation

A strong solution begins with a clear understanding of the environment, risk, priorities and practical constraints.

01 SECURITY ASSESSMENTS

We review the environment, identify vulnerabilities and define priorities before recommending a solution.

02 SYSTEM ARCHITECTURE

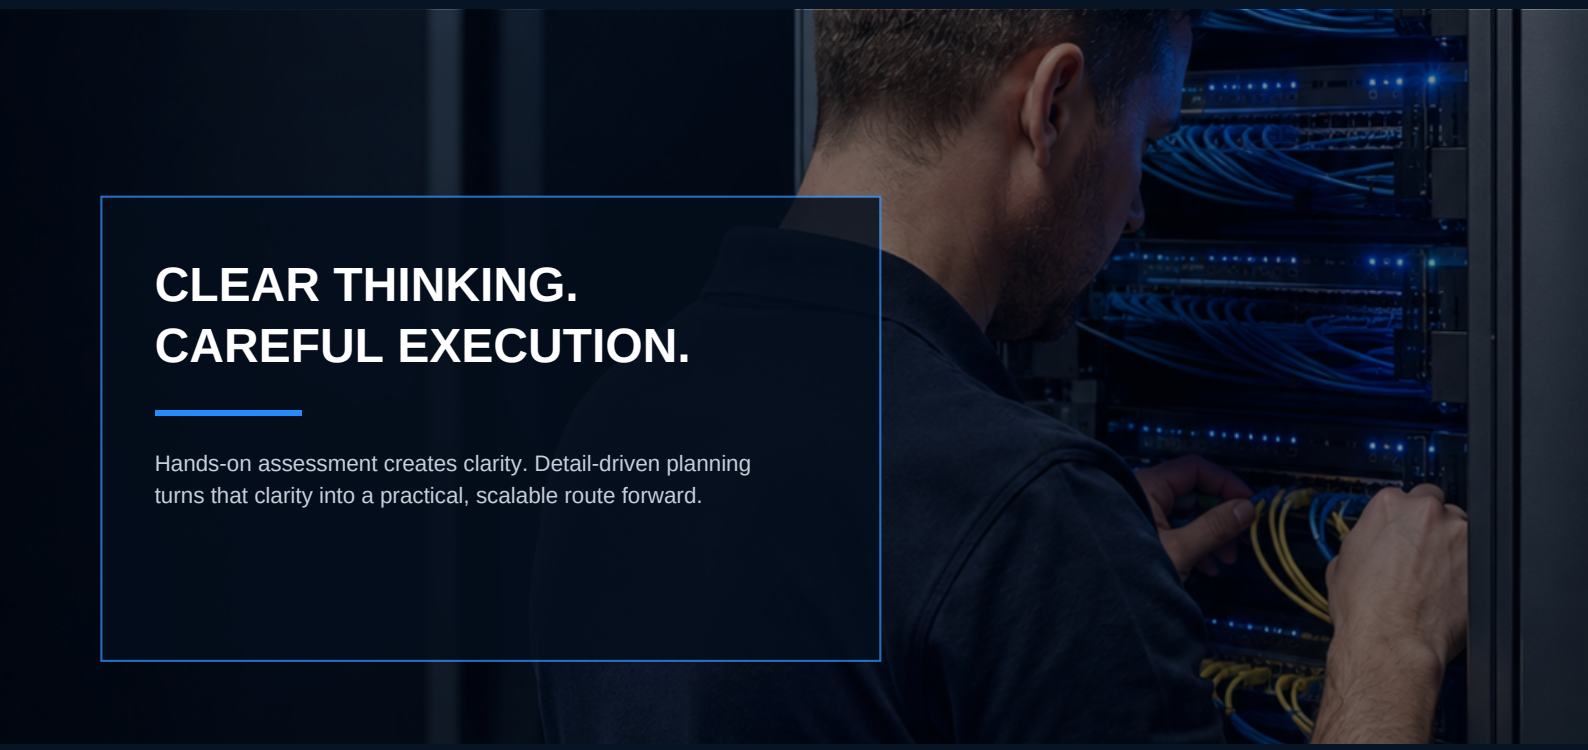

We plan robust, scalable security and smart-system infrastructure for new installations and upgrades.

03 PROVIDER LIAISON

We translate client requirements and coordinate specialists to align scope, performance and value.

04 IMPLEMENTATION MANAGEMENT

We oversee delivery from planning to rollout, with attention to timing, budget and quality.

CLEAR THINKING. CAREFUL EXECUTION.

Hands-on assessment creates clarity. Detail-driven planning turns that clarity into a practical, scalable route forward.

SECURITY AND CONTROL

Protect what matters

Security should strengthen daily life without making it harder to manage.

01 CCTV SOLUTIONS

From straightforward camera configurations to systems with intelligent analytics.

02 ACCESS CONTROL

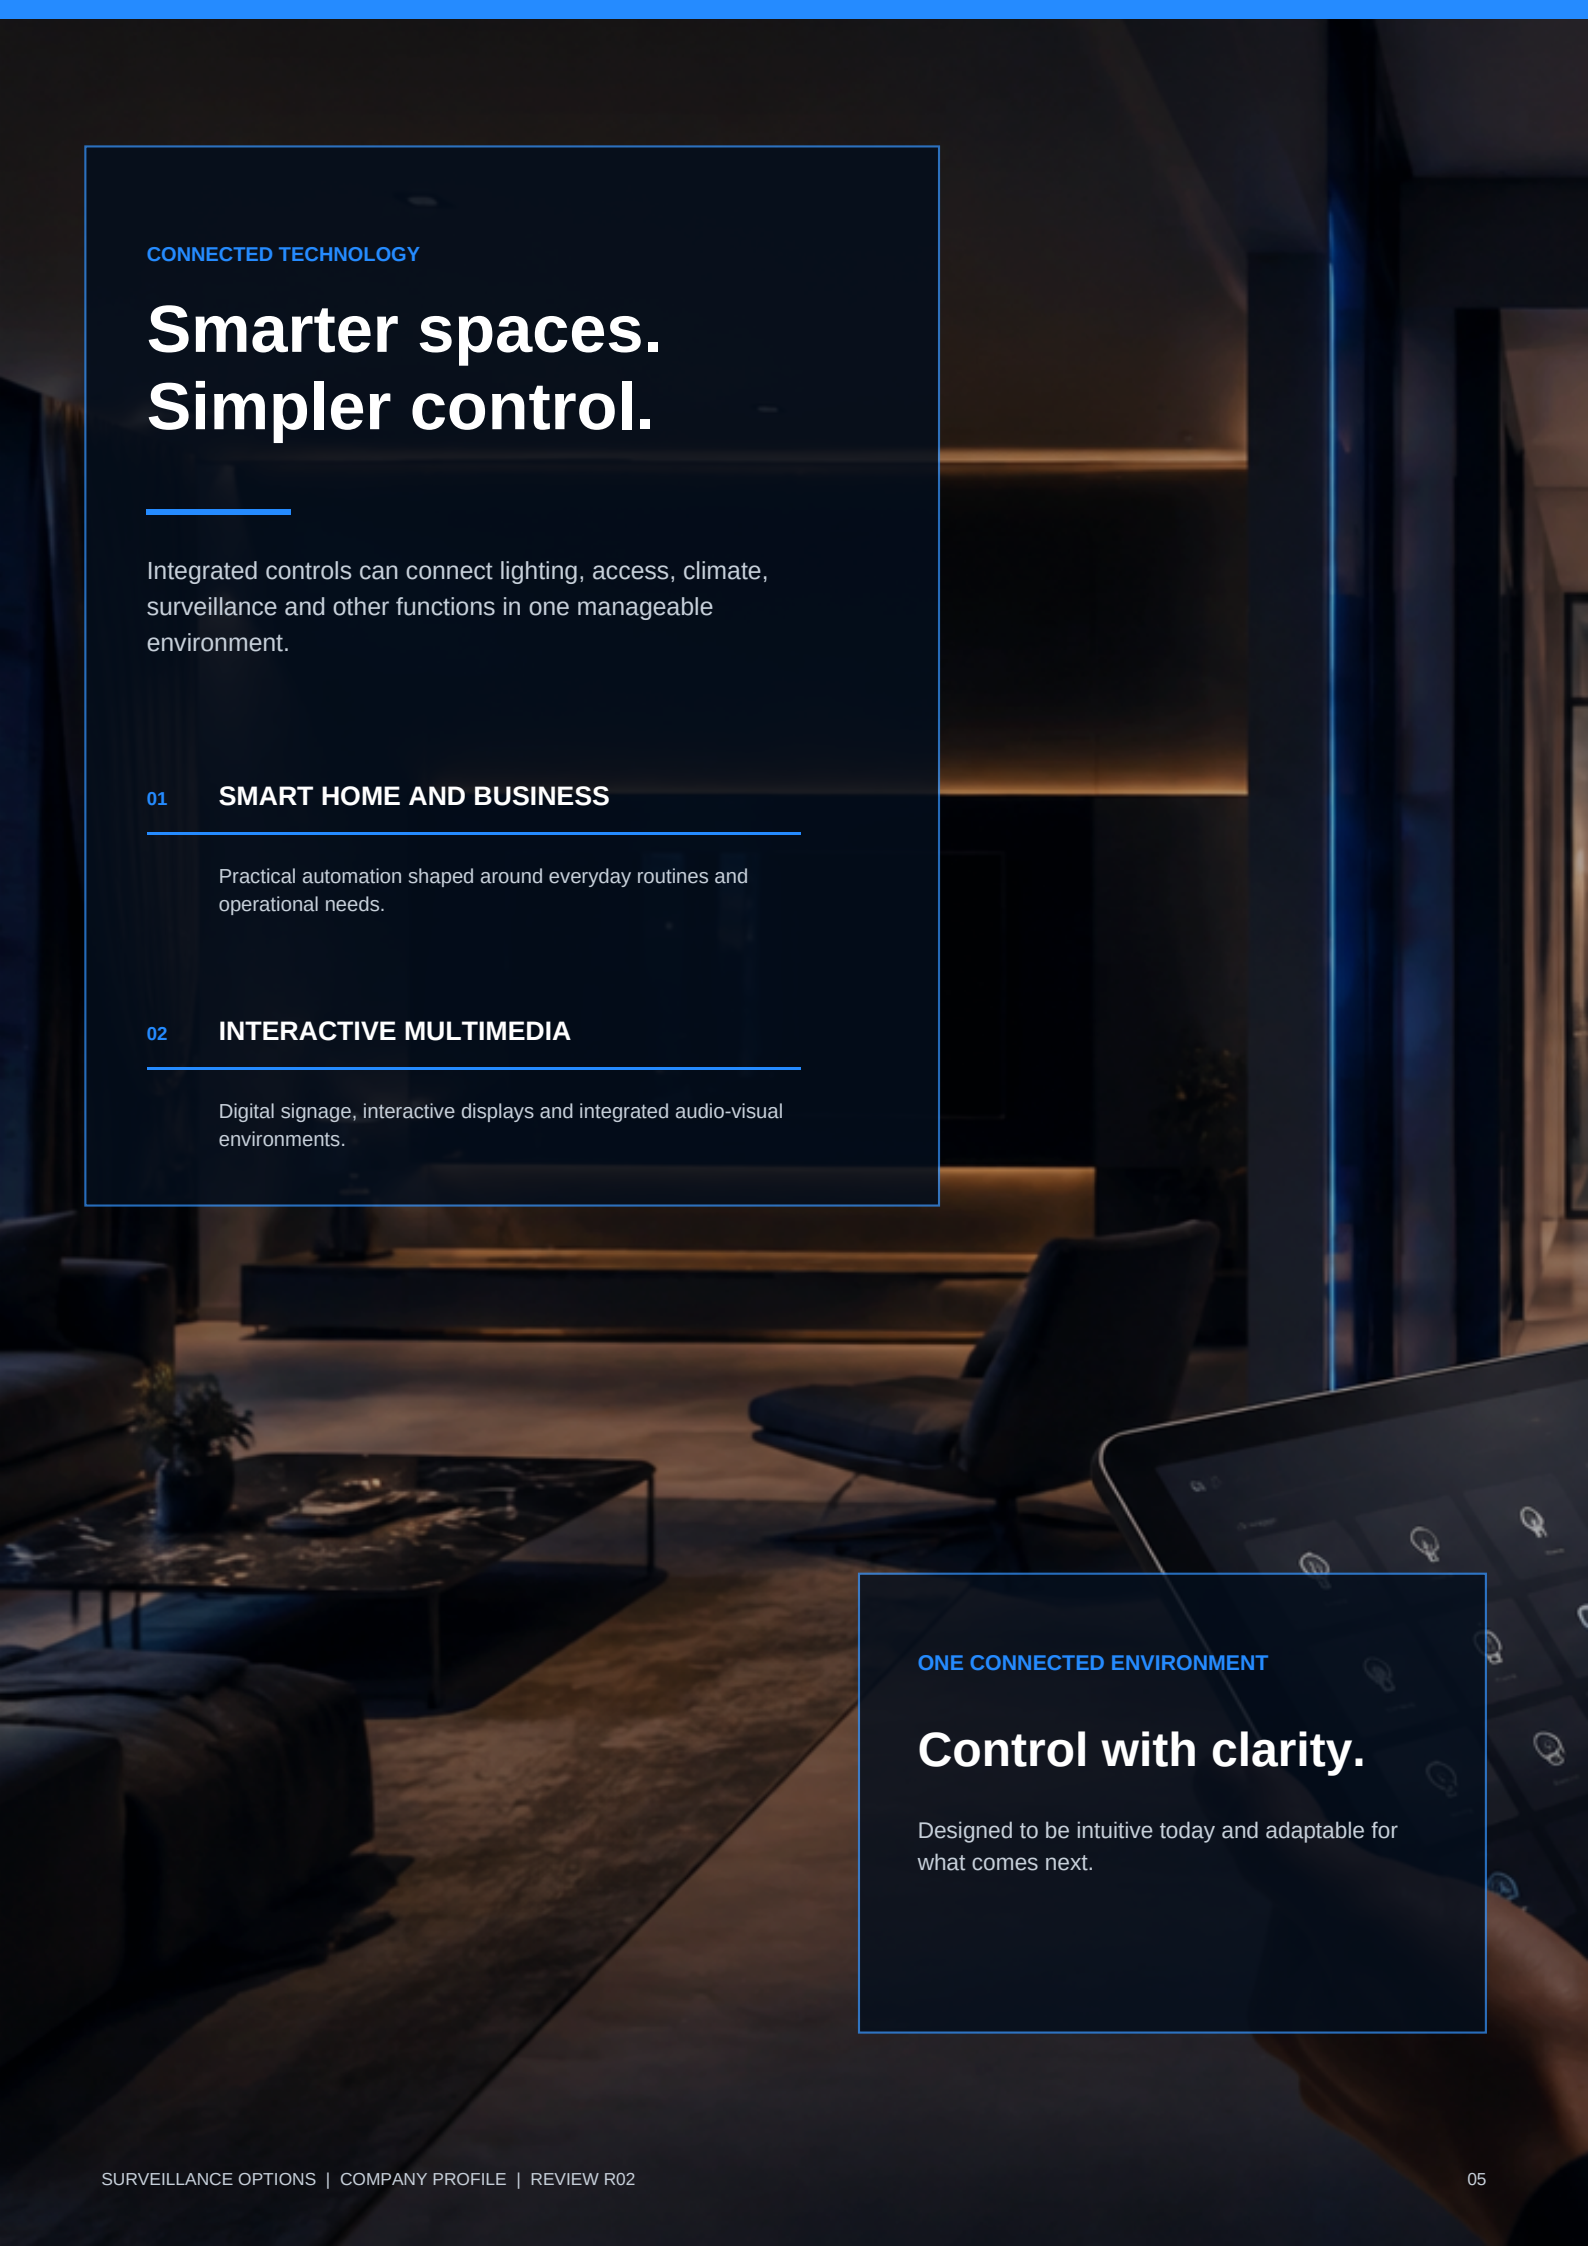

Biometric, card, keypad and mobile options aligned to the facility's requirements.

03 ALARM AND INTRUSION

Early-warning systems that alert users when unusual activity is detected.

04 REMOTE VISIBILITY

Remote dashboards, mobile applications and centralised monitoring options according to scope.

CONNECTED TECHNOLOGY

Smarter spaces. Simpler control.

Integrated controls can connect lighting, access, climate, surveillance and other functions in one manageable environment.

01 **SMART HOME AND BUSINESS**

Practical automation shaped around everyday routines and operational needs.

02 **INTERACTIVE MULTIMEDIA**

Digital signage, interactive displays and integrated audio-visual environments.

ONE CONNECTED ENVIRONMENT

Control with clarity.

Designed to be intuitive today and adaptable for what comes next.

NETWORKS AND DELIVERY

The infrastructure behind reliable systems

Wired and wireless networks designed for dependable day-to-day operation and future growth.

A PRACTICAL DELIVERY PROCESS

01 **ASSESS**

Understand the environment, objectives and constraints.

02 **DESIGN**

Define the architecture and appropriate technologies.

03 **COORDINATE**

Align the client, providers and project requirements.

04 **IMPLEMENT**

Manage rollout against scope, timing and budget.

05 **SUPPORT**

Maintain the system and respond as needs change.

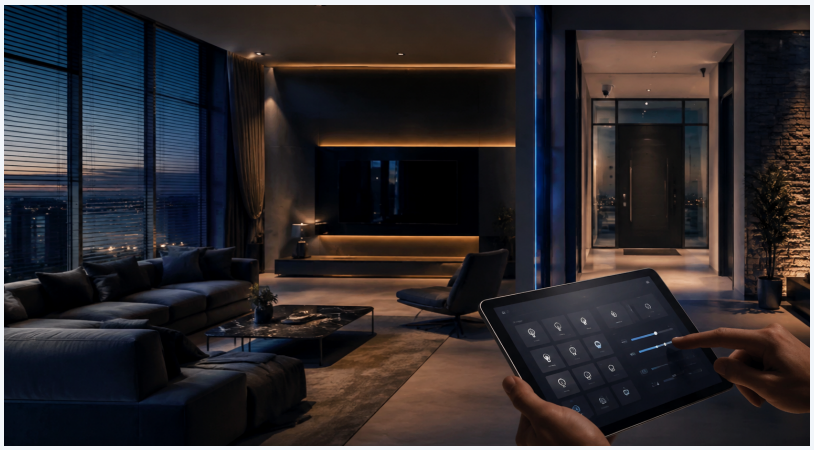

EXPERIENCE AND VALUES

Evolving with technology

The supplied company profile records a progression from security systems into networking, IT, access control, multimedia and smart automation.

2005	2008	2009	2012	2016	2020
CCTV + alarms	Networking	IT systems	Access control	Multimedia	Smart automation

WHAT GUIDES US

01 EXCELLENCE

Care and attention to detail.

02 INTEGRITY

Clear advice shaped around the client's needs.

03 CURIOSITY

Continuous learning as technology evolves.

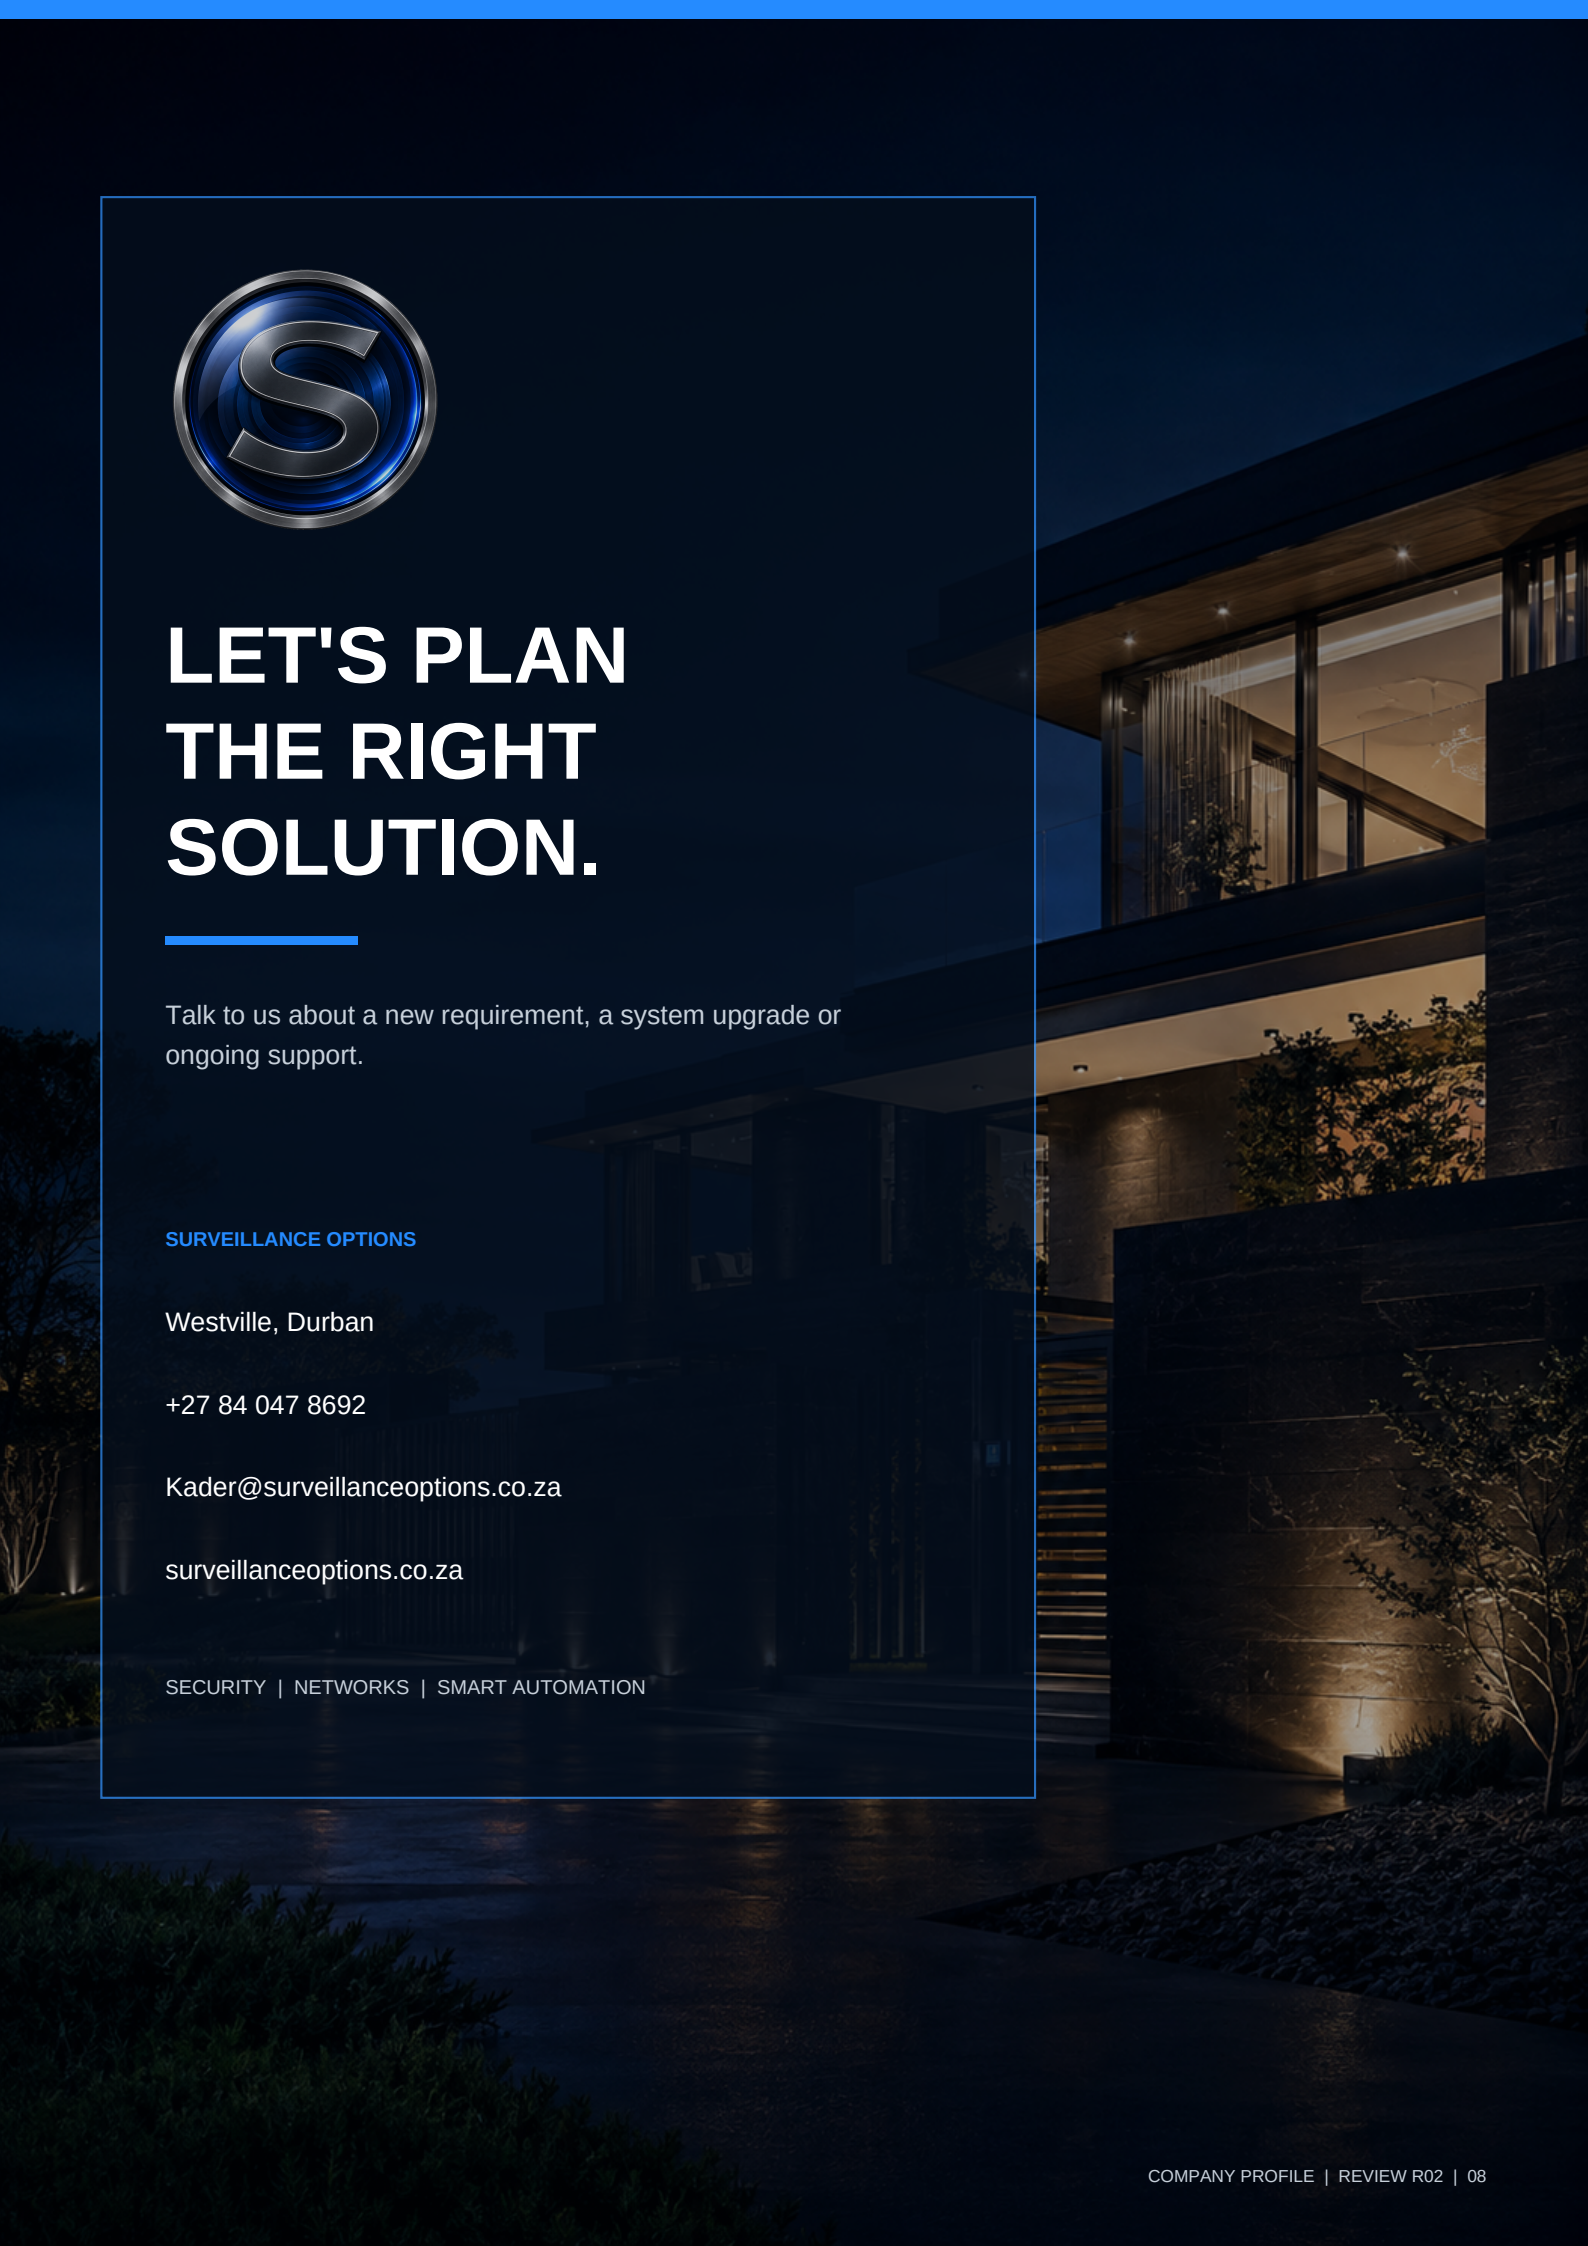

04 COLLABORATION

Constructive work with clients and providers.

05 CUSTOMER COMMITMENT

Responsive service and long-term support.

Review note: supplied profile begins the journey at 2005; the current website states founded in 2004. Confirm before final.

LET'S PLAN THE RIGHT SOLUTION.

Talk to us about a new requirement, a system upgrade or ongoing support.
